WOMAN MAY BE CAUSE OF MURDER

JEWELER SLAIN IN HIS OFFICE

Chicago Police Working Upon
a Mysterious Case.

REVENGE BACK OF MURDER

Merchant Found In His Place Shot,
Stabbed Innumerable Times, With
Aid Burns on Face and Black Rib-
bon In Mouth—Chief McWeeny
Places Two Hundred and Fifty Po-
licemen On the Job.

Chicago, Dec. 21.—Revenge, accord-
ing to the police, prompted the mur-
der of J. H. Logue, a diamond mer-
chant, who was killed in his office in
the McVicker theater building.

Logue is said to have been respon-
sible for the sentencing of some dia-
mond thieves to prison in 1905 or
1906, and police are working on the
theory that they, having regained
their freedom, may have been impli-
cated in the killing.

A woman may have been included
in the plot against Logue's life. When
found in his office he was gagged with
a black ribbon.

Seventeen knife wounds were in
his body, which caused the revenge
theory to be advanced. He also was
shot in the right shoulder, but the
wound would not have caused death,
physicians said. His mouth was burn-
ed with acid. A phial which had con-
tained the drug was found on the of-
fice floor. His skull had been crushed.
Part of Logue's right thumb was al-
most severed, indicating a hand-to-
hand struggle.

Whether robbery entered into the
crime has not been determined. The
office safe was locked, but bloody fin-
gers were found on the desk.

OSCAR UNDERWOOD

Democratic Leader of the
House Reported Seriously Ill.

© 1912, by American Press Association.

FRIENDS HAVE GRAVE FEARS FOR OUTCOME

Oscar Underwood, Democratic
Leader, a Sick Man.

Washington, Dec. 21.—It is learned
that the condition of Oscar W. Under-
wood, Democratic leader of the house
of representatives, is more serious
than members of his family are will-
ing to acknowledge. Mr. Underwood
is in charge of two prominent physi-
cians. He has a severe cold that for
a time threatened to develop into
pneumonia. This condition has been
aggravated by nervous exhaustion due
to overwork. The attending physi-
cians expect that good nursing will
bring Mr. Underwood back to his nor-
mal health.

To War On Diseases.
Columbus, O., Dec. 21.—The state
board of health, according to an-
nouncement of Dr. E. F. McCampbell,
its secretary, will ask the legislature
this winter for an appropriation of
\$6,000, with which to investigate occu-
pational diseases in Ohio.

THE CONDITIONS ARE BAD INDEED OVER IN MEXICO

MEXICO AGAIN TO BE WARNED

Situation In Border Republic Is
Considered Grave.

SERIOUS TASK AWAITS WILSON

New Administration Will Have to
Face Task of Putting Down Insur-
rection and Abuse of American In-
terests—Committee From Senate to
Make Trip of Investigation on Com-
plaint of American Citizens.

Washington, Dec. 21.—The extreme
gravity of the situation that will con-
front the Wilson administration on
March 4 through its inheritance of the
Mexican trouble became evident when
the latest phase of the relations be-
tween this government and Mexico
was disclosed.

The nearness of the date of the re-
tirement of President Taft has made
it apparent here that there will be no
change in the policy of this govern-
ment toward Mexico during the re-
maining two months of the present
administration. It is felt that it would
be highly improper for the Taft ad-
ministration to take any action be-
tween now and March 4 that would
burden the incoming administration
with the necessity of carrying on mil-
itary operations against its will.

Yet it is frankly acknowledged that
conditions in Mexico are worse than
ever before. It is admitted that a sit-
uation beyond which the United
States could not with self-respect en-
dure more, is nearer now than three
months ago, when a sharp note of
warning was sent to Mexico. Mexi-
co's reply to the note is unsatisfactory
and requires that another note be
sent to President Madero in the im-
mediate future.

Note of Warning.
The note now in preparation will
sharply call Mexico to account for her
neglect to provide protection for
American life and property and it will
be left to President Wilson and his
secretary of state to invoke force if
they choose to do so.

More complaints and more urgent
calls are being received from Ameri-
cans throughout Mexico now than
three months ago, when President
Taft's note was sent to the Madero
government.

George Fred Williams, testifying
before the senate subcommittee, de-
clared that the arm of federal author-
ity in southern Mexico is paralyzed,
that the authority of the Madero gov-
ernment in that region has practically
disappeared. The state department
itself made public dispatches recount-
ing the kidnapping of J. Morreys, an
American citizen, roadmaster of the
Mexican Northwestern railroad. He
was caught by bandits, posing as "reb-
els," only 25 miles south of Juarez,
on the border, and carried off into the
hills to be held for ransom. Also the
state department received dispatches
from Cananea to the effect that 950
Mexican miners employed by an
American corporation had gone on
strike and were threatening violence.
The anti-American feeling at Cananea
is very strong. The striking miners
greatly outnumber the federal garri-
son and serious trouble is feared at
any moment.

Americans who have come to Wash-
ington recently from the border states
or from Mexico itself have shown a
surprising unanimity of view on the
Mexican situation. Practically all
have stated it to be their firm belief
that intervention in Mexico by the
United States is inevitable.

The state department has prepared
for the consideration of congress a
recital of the wrongs suffered by
Americans in Mexico, with a recapit-
ulation of each case of American loss
of life and property, besides the offi-
cial correspondence showing what has
been said to Mexico, what she has
promised and to what extent she has
fulfilled her promises. All this infor-
mation will be available for the in-
coming administration.

ONE BORN FOR EVERY MINUTE OF THE TIME

CLAIM FRAUD NETTED PROMOTERS MILLIONS

Postoffice Inspectors Arrest Six Alleged Participants.

New York, Dec. 21.—Postoffice in-
spectors armed with warrants gath-
ered in six of the officers and direc-
tors of the Sterling Debenture com-
pany. Three other directors probably
will be arrested shortly. Postoffice
Inspector G. G. Kimball, one of the
men who did the investigating for the
government, said the company itself
had made \$10,000,000 since 1906,
through its commissions for selling
stock in various companies.

The charge made against the men is
fraudulent use of the mail in connec-
tion with selling stock in the Oxford
Linen company of Brookfield, Mass.,
a Maine corporation, which has a cap-
italization of \$18,000,000. The gov-
ernment has found a number of per-
sons to whom the Sterling company
sent letters which, the government
alleges, were for the purpose of fraud,
in making fraudulent claims about the
Oxford Linen company.

The men arrested are Frank W.
Shumaker, president of the company;
Samuel E. Findlay, Harry H. Platt,
Sidney Rosenbaum, an attorney; E.
A. Barron and Wilbur M. Stone, a
patent attorney. They were held in
bail for trial.

Mudge's dream is to invent a way
by which the American flax straw
could be turned into linen, which
would mean that he could make linen
much cheaper than it could be im-
ported.

SOMETHING DEFINITE ON CANAL QUESTION

MILLER'S REPORT ON CANAL CONDITIONS

Says a Progressive Policy Is
Crying Need of the Hour.

Columbus, O., Dec. 21.—A definite,
consistent and progressive canal pol-
icy is the crying need of the hour, ac-
cording to John I. Miller, chief engi-
neer of the state board of public
works, who has been appointed by
Governor Harmon as superintendent
of canals under the new constitutional
amendment abolishing the board.

"The canals of the state have fallen
into ruin and decrepitude and are ey-
esores and objects of scorn to many
people," declares Mr. Miller, who
dwells at length upon the damage that
has been done by the shifting policy
of general assemblies with reference
to the canals.

Especially is it important, Superin-
tendent Miller declares, to think about
canal improvement at the time when

NOTHING ASKED CAN BRING AN ANSWER

Personnel of Cabinet Will Not Be
Known Until March.

Trenton, N. J., Dec. 21.—Whether
William Jennings Bryan or any of the
other prominent Democrats being
mentioned by politicians generally for
places in the cabinet of President-
elect Wilson will be appointed to por-
tfolios probably will not be definitely
known until within a few days of in-
auguration day. Governor Wilson
said that very likely he would not
make a single announcement of im-
portance until about March 1.

Within the next few hours he will
talk with Mr. Bryan, and before New
Year's he expects to see Speaker
Clark, Representative Underwood,
Senators O'Gorman, Hoke Smith, Gore
and other prominent Democratic lead-
ers, but he indicated that he meant to
keep strict silence about appoint-
ments until ready to make a general
statement on the subject.

Sails Away For Zone

Civil Government For Canal Zone
Likely to Be Established.

Jacksonville, Fla., Dec. 21.—To de-
termine if the time is opportune for
establishing civil government in the
Panama canal zone is the purpose of
President Taft's trip to the isthmus.
The president made this announce-
ment in a speech here. "You may
think I could ascertain this as well
in Washington, but I don't know,"
said the president. "At any rate I am
going and I expect to issue the order
creating the new government in the
zone if I find conditions warrant it."

The president and his party left for
Key West, from where they will sail
for Panama today on the battleship
Arkansas.

Gerlach Case Up to Harmon.

Columbus, O., Dec. 21.—Whether
Major C. F. Gerlach will be retained
as superintendent of the Boys' Indus-
trial school at Lancaster or dismissed
as the result of the investigation
made by the state board of adminis-
tration of charges of abuses at the
institution, will be determined by Gov-
ernor Harmon. The governor practi-
cally took personal charge of the case
by sending for the board, conferring
with members and obtaining from
them a copy of the testimony taken
at the hearing.

GOOD MAY YET COME OF PROBE

MANY REFORMS TO BE ASKED FOR

Pujo Committee Plans to Regulate
Stock Exchange Methods.

SEEK COMPULSORY PUBLICITY

Manipulation of Market Would Be
Curtailed or Prohibited—Clearing
Houses Also to Be Regulated If
Committee's Ideas Are Carried Out.
Would Secure Privileges For Non-
member Banks.

Washington, Dec. 20.—The Pujo
committee of the house, when it ad-
journed for the holidays, had practi-
cally completed the stock exchange
and clearing house phases of its in-
vestigation.

There is one reform of which there
seems to be no doubt of the commit-
tee's endorsement, and that is com-
pulsory publicity in regard to pro-
moters' profits on stock issues listed
on the New York stock exchange.
The committee is certain also to
make some recommendation looking
to the curtailment or abolition of ma-
nipulations of the stock market.

To compel the incorporation of the
exchange and to forbid the transmis-
sion of quotations over the telegraph
wires unless the exchange adopts cer-
tain reforms, is apparently the
scheme on which the committee is at
present proceeding.

Counsel for the committee in the
course of the hearings thus far has
indicated also that the investigators
are seeking to form some method of
preventing the flow of money to Wall
street during periods of stringency in
the money market.

As to the practice of clearing
houses, the investigating committee
also seems to have some pretty defi-
nite views. It is practically certain
that they will recommend that the
state and national banking authori-
ties have the power to review the
judgment of the clearing houses in
cases where a member declines to
clear for a non-member bank.

It was learned that the committee
plans after the Christmas recess to
call some of the younger members of
the firm of J. P. Morgan & Company
and to question them in detail in re-
gard to certain transactions.

Made Death Doubly Sure

Ithaca, N. Y., Dec. 21.—In order to
make sure he would take his own life
Floyd Nobles, 55, a farmer of Enfield
Falls, went out to the barn, strung a
rope from the rafters, slipped the
noose over his head and, leaning
against a rifle, pulled the trigger by
the aid of a crooked stick. As his
body fell the noose tightened about
his neck and, had he not been killed
by the bullet, he would have perished
from strangulation.

Famous Jockey Dead.

Natchez, Miss., Dec. 21.—Rush Har-
ris, negro jockey and trainer, famous
since ante-bellum days for the race he
rode on Ypsilanti to win "a lady and
a fortune" for his master, is dead at
the age of 80 years. Harris was rid-
ing for William Yancey, a planter,
who stood to lose his 5,000 acres in
one bet if Ypsilanti failed to come in
first. But far beyond mere land and
money was another prize, the girl to
whom he was engaged, who before
the race had told Yancey that she
would not marry him if his horse did
not win.

Will Reopen Oil Well Near Harpers Station

Herods' Creek Oil and Gas Company Have Men at Work Cleaning Out Well Drilled Last Year, Which Produced Seven Barrels of Oil Per Day—Same Company Drilled Well Near Fairview.

Ross and Kessling, two widely known oil experts, are at Harpers Station, in upper Ross county, some few miles southeast of Good Hope, engaged in cleaning out the oil well drilled in at that place by the Herods' Creek Oil and Gas company, of which Mr. Almer Hegler is secretary and treasurer.

The well was drilled last year and oil of a good quality was found. The well was shot and produced five to seven barrels of oil per day while it was tested. However, nothing more was done, and the well has been standing untouched for over a year.

However with the recent sharp advance in the price of crude oil, which has gone from \$1.75 per barrel to as high as \$2.07 per barrel during the past few weeks, new interest has been aroused in the venture at Harpers Station, and a number of new wells may be put down in that community in the early spring and next summer.

So far as known the Harpers Station well is the only producer ever put down west of the Scioto river in this state. Oil was found at a depth of about 1700 feet, but the well was continued to a depth of 1993 feet. Later a charge of 150 quarts of nitroglycerine was exploded at a depth of about 1700 feet, and the well showed five barrels of oil per day, and it is believed with a little pumping it could be made a much better producer.

The two experts stated that they expected to find about 590 feet of oil in the well, and when it is bailed out and the well cleaned, a pumping test will be made which is expected to prove interesting.

Whether the well at Fairview, this county, drilled in by the same company, will be cleaned out and shot at the depth where a showing of oil was found, remains to be seen. It is not the intention of the company to do this at once, it is understood, although some of the members are not and have not been satisfied with the test made, but desired that it be shot, believing that a producer would result.

An unprecedented amount of "wildcatting" is predicted during the coming year, and wherever a trace of

oil has been found, further tests will be made. The increased price of oil is the incentive back of the "wildcatting".

As the Harper station community has shown the best prospects of any place west of the Scioto river, it will in all probability be a fertile field for further prospecting.

The wells drilled in and near this city several years ago, and all of which showed traces of oil of a fairly good grade, may be investigated by some company before the coming outbreak of "wildcatting" ceases.

Father and Son Both Worried

The story comes from Bloomingburg of an unusual incident which occurred this week.

Samuel McDowell, Jr., who is attending school in Columbus, was struck and slightly injured by a street car, and when word reached his father who operates the McDowell elevator in Bloomingburg, Mr. McDowell by telephone urged his son to return home until he fully recovered, thinking the injuries might be of a worse character than he knew.

As the injuries were really not of a serious nature, the young man told his father that he would remain until school closed for the holidays. After the talk by phone Mr. McDowell became still more worried about the injuries sustained by his son, and decided to go to Columbus on the morning train, and, according to the story, did so.

In the meantime the young man had studied the situation over, and not wishing to cause his parents unnecessary concern, decided that he would go home on the morning train, which he did, and as a matter of course each did not know what the other had done until they arrived at their destinations and each found the other gone. When Mr. McDowell found his son had returned home, he also returned on the next train.

Sudden Death Calls Relatives

Mr. Frank M. Fullerton, Mr. and Mrs. George Jackson and daughter, Miss Emma, were called to Tolono, Ill., this morning by the death of Mrs. T. M. Salisbury, a sister of Mr. Fullerton and Mrs. Jackson.

Mrs. Salisbury had a number of relatives and many warm friends in this community who will learn of her death with deep sorrow and sincere sympathy goes out to the husband, left entirely alone, and the brother and sisters.

ROAD WRESTLES WITH A TRIO OF TROUBLES

The freight wreck at Ghormleys, south of Good Hope Friday, was only one of a series of freight wrecks experienced by the D. T. & I. within a period of 48 hours, two even more disastrous wrecks taking place on the northern division.

After strenuous work the wreck at Ghormleys was cleared up enough to permit the resumption of traffic, and the north-bound passenger train reached this city some five hours late, and the south-bound train due here at eight, passed the wreck about the midnight hour, having been delayed on the northern division.

One wreck near Briar station, in which eight cars were ditched, required many hours to clear away, while a like number of cars took the ditch near Napoleon, and again traffic was tied up for hours, so that all along the division during Thursday and Friday the traffic was badly demoralized.

A new "big hook" outfit has been ordered by the road, and it will be of great assistance in quickly removing wreckage and restoring traffic.

The track men of the road have been promised an increase in wages next spring.

Today Shortest Day of the Year

Today is the shortest day of the year. It is the first day of winter. The sun arose at 6:58 and sinks to rest at 4:58, and Old Sol will then

resume his journey northward and on March 21 it will be in line with the terrestrial equator and the length of the "working hours" and "sleeping hours" will again be equal.

The longest day of the year will occur on June 21st next, when the sun reaches the point farthest north.

First Girls' Basketball Game

The opening basketball game of the season between the Washington Basketball team and the "Independents" was played at the Armory Friday night.

There was a good crowd and the game was spirited, although the Independents were handicapped by their first struggle. There is good material in the team but it will take practice to make it a match for the experienced team of last year.

The new players have all kinds of grit, however, and before the next game expect to be in fine feather.

Although one-sided, the score was 26 to 7 in favor of the Washington Basketball team, the game was anything but slow and the spectators thoroughly enjoyed it. The work of the forwards on both sides was especially good.

The line-up:

AN AMERICAN GIRL.

The news dispatches of the day announce unequivocally the engagement of Miss Helen Gould, the oldest daughter of the great financier of the seventies and eighties.

Since the death of her father, the late Jay Gould, the management and control of the great Gould fortune has fallen to the lot of George K. Gould, the oldest son of the financier and to Miss Helen.

So far as her conduct before the public is concerned, her treatment of the public, her management of the vast fortune and intricate financial complications growing out of the kind of securities and stock it was invested in, have proven Miss Gould to be a capable business woman and a level headed, conscientious true American. Her time and her money, not devoted to business have not been wasted in riotous living nor vulgar display. She has been noted for her practical philanthropy and generous gifts to worthy causes.

In both fields of work she has achieved real success. In the business world she has succeeded in increasing her original share of the Gould fortune from nearly twenty millions to approximately forty-four millions of dollars, and now at the time of her engagement it is announced she has to show for her twenty odd years of business activity, not only a cool million for each year of her age, but a wealth of good work for humanity, a priceless fortune of public admiration and affection.

Helen Gould has been a remarkable woman and in trusting her hand and fortune to "the one man" she has chosen, a young American of ability and energy, instead of the shell of an empty form of society. In this she has again shown her good common sense and practical patriotism as in everything else.

Her splendid success in life is but emphasized by the miserable failures the other members of the family, barring her brother, George K. Gould, have made of their lives and their opportunities.

America can well afford to love and admire Helen Gould. She has demonstrated that she possesses those sterling qualities which make America what it is and that she has her full share, in addition, of the sound business acumen which laid the corner-stone for and builded block by block the Gould fortune. She is an American girl.

Presidential Term Should Be Extended

Four Years Not Enough

By Mrs. GEORGE J. GOULD

One Period of Six Years

New York Society Leader

THE presidency of the United States has become the MOST POWERFUL STATION IN THE WORLD. So much responsibility and work devolve upon the incumbent of that high office that I sometimes marvel at the ability with which presidents meet the obligations that are imposed upon them. I have observed that presidents sometimes succumb to the blandishments of their advisers and permit their appointments to public office and their recommendations as to legislation to be influenced by their desire for re-nomination and re-election. This temptation should be removed.

THE PRESIDENTIAL TERM SHOULD BE EXTENDED TO SIX YEARS AND PRESIDENTS SHOULD BE INELIGIBLE FOR RE-ELECTION. THE RESULT, I AM CONFIDENT, WOULD BE A HIGHER STANDARD OF PUBLIC SERVICE AND A GREATER DEVOTION TO THE INTERESTS OF THE PEOPLE.

Experience has shown that it requires some time for a president to become accustomed to the duties of his office and to make the wheels of administration and legislation move in the right direction. Four years do not seem to be enough. The additional two years will give OPPORTUNITY FOR THE WORKING OUT OF REFORMS and for carrying to completion presidential policies.

The experience of France, which makes the presidential term seven years, has in the main proved highly successful. If the chief executive were elected for six years there would be LESS TENDENCY TO UPSET THE BUSINESS OF THE COUNTRY. The turmoil and disturbance caused by a presidential campaign every four years would be avoided. I must acknowledge, however, that the last presidential campaign caused less disturbance to business than any campaign within my recollection.

Poetry For Today

CHRISTMAS QUERIES.

If you were Santa Claus, would you Do as he does and hitch Your reindeer to the chimneys of The overladen rich? If you were Santa Claus, would you Fill up your sled with what They didn't need at all because They had already got? If you were Santa Claus, would you Go past the open door Where you might enter in and leave Some Christmas for the poor? If you were Santa Claus, would you Neglect the ones who need Some merry Christmas in the lives Of poverty they lead? If you were Santa Claus, would you Be glad if you were found Dividing up the gifts you had. To make them go around? If you were Santa Claus would you Be passing out the stuff To them that hadn't anything. Or them that had enough? If you were Santa Claus, would you. In going through a block, Make any difference if it were A silk or cotton sock? If you were Santa Claus, would you Consider that your hike Had failed because you didn't treat The rich and poor alike? If you were Santa Claus, would you— Of course you wouldn't. Say, If you were Santa Claus you'd do The same old Santa way.

OHIO HAPPENINGS

Will Hear Townsend Appeal. Columbus, O., Dec. 21.—The supreme court gave William H. Townsend, former county commissioner of Darke county, convicted of grafting and sentenced to three years in the penitentiary, leave to file a petition in error. Townsend secured a suspension of execution of sentence while his appeal is pending, and this will give him a new lease on his liberty until the court hears and rules upon his case.

May Spend Xmas at Home.

Columbus, O., Dec. 21.—The supreme court adjourned sine die without certifying its action in the cases of Senators I. E. Huffman and L. R. Andrews to the common pleas court. Attorneys interpret this as an indication that the court intends to let the convicted senators spend the holidays with their families and send them to the penitentiary to start their sentences about the first of the year.

Pen Sentence Stops Wedding.

Columbus, O., Dec. 21.—Russell Detre, who pleaded guilty in criminal court of attempted burglary, will have to wait about two years to marry his fiancée, Celle Peters, a telephone operator, whom he was to have wedded Christmas day. He was sentenced to two years in the penitentiary by Judge Evans.

Murder Follows Children's Fight.

Chillicothe, O., Dec. 20.—Doyle McVetter, 21, was placed in the county jail here charged with killing Roscoe Snyder, 21. The killing was the result of a quarrel among children of the two families and which was taken up by the two young men. The killing occurred near Omega, this county.

Hebrew Surgeon Saves Son Of Czar

Tubercular Kidney Reported Removed From Heir to Russian Throne.

Berlin, Dec. 21.—What appears to be the true explanation of the illness of the Russian czarévitch became known when it was learned in medical circles here that Professor Israel of Berlin, one of the world's most celebrated specialists on kidney diseases, recently went to St. Petersburg and by an exceedingly delicate operation removed a tubercular kidney from the 8-year-old heir apparent to the Russian throne. Professor Israel is said to have received a fee of \$25,000 for the operation, and also claimed as a boon the rescinding by the czar of the laws prohibiting the settlement of Jews in Odessa and Kieff. Professor Israel is a Jew.

EGG NOG WITH EGG POSSIBLE

Women's Crusade in Chicago Is Crowned With Success.

Chicago, Dec. 21.—Women who started out to break the price of fresh eggs here to 24 cents a dozen as a warning to dealers not to try to raise the price of the product above that figure were successful in selling to 70,000 housekeepers and in causing grocers all over this city to advertise fresh eggs at that price or less as an offset to the cheaper egg campaign.

Making Progress For Peace In Balkans

Two Important Principles Find Favor With Ambassadors.

London, Dec. 21.—The first official announcement so far made regarding the "conversations" of the ambassadors of the powers in regard to the Balkan situation was given out at the foreign office. It says: "The ambassadors have recommended to their governments and the latter have accepted the principle of Albanian autonomy, together with a provision guaranteeing to Serbia commercial access to the Adriatic. The six governments have agreed in principle on these two points."

Tried to Choke Farmer's Wife

A few nights ago Mrs. Frank Shockley, of near South Solon, was badly frightened when some unknown man grabbed her by the throat while she was at the well securing a drink.

Mr. and Mrs. Shockley had been to South Solon where Mr. Shockley had deposited the proceeds of his public sale, and while he was un-harnessing the horse upon their return home, Mrs. Shockley had proceeded to the house, and was in the act of securing a drink of water when the man tried to choke her. She wrenched herself from the fellow's grasp and screamed, whereupon the man fled. Burglary is believed to have been the object of the attack.

LOCAL FARM HAND KILLED BY TRAIN

Charles Carson, aged 49 years, a farm laborer who has been employed by George Cline of near Selden the past four months, met death in the railroad yards at Chillicothe some time Friday night, when a train struck him, causing instant death.

Carson left this city for Parkersburg, W. Va., Friday morning, going to Chillicothe on the 9:38 C. H. & D. train, and intending to go from that point on the B. & O. S. W.

Saturday morning word was received here that he had been killed by a train while in the B. & O. yards at Chillicothe, and inquiry developed that he had a son, Orley, working at the Crone livery barn in this city, and that he had a sister living in Fountain City, Ind., and had been making his home there for some time previous to taking up work with Mr. Cline, where he cut and husked corn.

Word was dispatched to the dead man's brother, Wilt Carson, of Winchester, Ind., and the remains will probably be shipped back there.

Orley Brown, the son working in this city will probably go to Chillicothe to look after the remains.

Christmas In Public Schools

The joyous Christmas spirit was rife in the public schools of our city yesterday, although owing to the inconvenience of temporary school quarters, the usual public receptions and programs were abandoned.

Miss Edith Blackman in the third grade was the only teacher, who issued invitations, and there were a number of visitors present at the charming Christmas program her pupils presented.

But in every room of the various buildings, there were beautiful Christmas decorations and attractive programs for the pleasure of the pupils, and the teachers made special effort to bring out the true meaning of the Christmas tide.

The teachers were generously remembered by their pupils with many beautiful Christmas gifts and the afternoon, with its cozy confinement of school relations, was thoroughly enjoyed at Central, Sunny Side, Cherry Hill and East Side.

Friday night the schools were dismissed for a week and will resume work on December 30th—New Year's day will be a holiday.

This year there will be no spring vacation. At the last meeting of the Board of Education it was decided to give the pupils a vacation on Good Friday and Easter Monday, as a slight relaxation, and abolish temporarily the spring vacation.

This is done in order to close the schools by June 13th, otherwise impossible owing to the delayed taking up of schools in the fall.

Ten Gamblers Found Guilty

In the case of Ohio against the ten colored men arrested on a charge of gambling last Sunday afternoon, Mayor Smith has found them guilty and will assess the fines Monday morning.

Four of the men were tried, Jack Taylor, Wilbur McBride, John Holland and Charles George, and it is claimed the remainder of the ten agreed to abide by the decision of the mayor in the cases, and if the four were found guilty it would mean all ten were guilty.

The other six who composed the ten are Till Taylor, Joe Dunson, Joe Stewart, Ham Taylor, Charles Bryant and Blaine Hurley.

New York, Dec. 21.—Broadway heard that after next season George M. Cohan would retire from the stage and live on a country estate. It was said that he was negotiating for the purchase of an extensive plot of unimproved land in Rhode Island on which he would build a home. At the Cohan theater Mr. Cohan declined to discuss the matter.

Indianapolis, Ind., Dec. 21.—The three speakers for the defense, all representing defendants in the dynamiting cases which are not included in the general defense of the officers of the organization, gave most of their time to the testimony of Orrie E. A Christmas Question

Shy, expectant, coy and glad,
Would you turn and run
like sixty,
And, if so, which way,
my lad?

THE RIGHT CHRISTMAS WAY

By MRS. H. L. MONTY.

[Copyright, 1912, by American Press Association.]

"O H, Mrs. Everly, I just thought I'd drop in and talk Christmas to you. It's all I hear at home, and I—"

Alice Milner was a very dear young friend of Edna and Vera Everly, and Christmas and all the wonderful secrets belonging to it had always been discussed as one family. She was amazed when Mrs. Everly turned abruptly and said: "Alice, don't. Please don't talk Christmas this year."

Alice hurried upstairs, where Edna and Vera were brooding over the same command, given them the evening before.

Edna was the first to speak. "I don't understand mamma at all. Before she has always been the first to begin the Christmas gifts, and—and she never tired of planning."

Vera was angry. "Last evening papa said: 'I think, mother, that Santa will have to unload that fine dining table at Bradelaugh's for you Christmas. The one with—' And that was as far as he got. Mamma said: 'Father, that will do. Christmas will not be mentioned to me this year.' And—and this morning mamma went to the furniture store, bought that table and has it all set for dinner. I know papa will be hurt."

Alice jumped up. "Come on, girls! Let's go over and consult Aunt Betty." The girls told her their Christmas troubles and about the dining table.

She was very quiet for a few seconds. "What did you give your mamma last Christmas?" she asked. "The Axminster rug for the parlor."

both girls quickly answered. "Papa gives us a dollar every month for our bank, to be kept just for a Christmas gift for mamma, and then he adds to it for what is wanted."

"Yes'm," quietly answered Aunt Betty. "And the Christmas before?" "A brass bed for the spare bedroom."

"Yes'm! And the Christmas before?" asked Aunt Betty again.

The girls hesitated a little, then, "A

"FOR THE DEAREST MOTHER EVER."

set of leather dining chairs, and a morris chair for—"

"Yes'm!" Aunt Betty's eyes snapped.

"Who sits in the morris chair?"

"Mamma put it in the library," Vera answered. "And papa sits in it and reads every evening and Sundays."

Then they all thought Vera had gone

crazy. She laughed, sang, jigged, and then with a hug she nearly upset Aunt Betty and said, "Girls, what silly folks we all have been!"

The girls left Aunt Betty an hour later, and Christmas was not mentioned in the Everly household, but the girls and their father looked unusually mysterious and happy.

Christmas morning dawned crisp and clear, the spirit of the day abounding everywhere.

Edna and Vera anxiously awaited their mother, having sent their father to bring her to their Christmas room, which they had trimmed up in evergreens and bells, after she had retired the evening before.

They met her with tender caresses and led her to a chair prepared purposely for her. Edna brought her gift, a beautiful collar of her own work, and pinned it on with a brooch, in which was her birthstone.

The mother drew the face of her first child to her and kissed her, a tear dropping on the upturned face.

Vera had quietly drawn near and laid a bundle of dark blue silk on her mother's lap. "For the dearest mother ever," she said as her mother drew her closely to her, sealing the precious words with a kiss.

Then father came forward and, taking her hand in his, said as he slipped his gift on her finger, "What I couldn't give the dear little woman when we started out together I give her now. The bewildered woman saw through fast falling tears a magnificent diamond sparkling on her hand."

"O-h," said Vera, "such a time as I've had keeping secrets!"

"The happiest Christmas I've known for years," remarked Mr. Everly. "Me, too," exclaimed Alice Milner. "I tried to have some one let me in with my little gift for the queen of the household, and no one heeded my call so I came anyway." And a lovely comb was added to her presents.

"This is what Christmas means; give to each for their own," and Edna started the ball rolling for a general Christmas frolic.

A FEW SUGGESTIONS

FOR YOUR

CHRISTMAS DINNER

If there's one time in the whole year when you want good things and plenty of them for the table, it's Christmas.

It's the one time of the year when you feel you can "lay yourself out" as it were to get up a big dinner, and we have taken more care this year than ever to get a stock of Christmas good things that should be not only high grade and appetizing but low priced as well—quality considered. The following are a few of the things we have that are good for the appetite.

OYSTERS

Delicious little morsels of sea food, shipped direct from the coast beds, daily, by the sanitary Sealship System, they retain all the salt sea flavor, 20c the pint.
